

We are a family winery and this is what defines our philosophy. El Porvenir de Cafayate is the luxury of being able to look at the long term.

The Italian tradition is part of our family and that is why we celebrate the 20th anniversary of the winery with this grappa made with great delicacy in a small still using Malbec and Tannat pomace.

We want this unique product that comes from a family tradition to reach you to celebrate together these 20 years. We want it to be an invitation to travel a journey of improvement and discovery that we undertook some time ago, here in Cafayate. Undoubtedly, our place in the world.
